

## 18" DOLL

# STRAPLESS TOP

Using our free printable PDF pattern for 18" doll strapless top, print and cut out pattern.

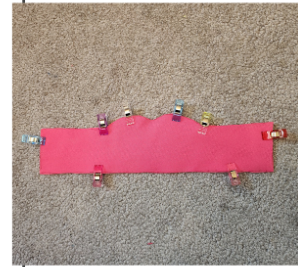

Before cutting out the fabric, test the pattern on your doll to check the fit and determine if you need to make any adjustments for your doll.

Pin the pattern on your fabric, and carefully cut around the pattern. 1/4 inch seam allowance has already been included in the pattern, so cut exactly around the pattern.

Cut 2 pieces - one layer will be a liner, the second layer will be the outer layer.

Pin fabric right sides together.

Carefully sew a straight stitch along the top, following the sweetheart neckline.

Tip: It can be a bit tricky to follow the neckline precisely. I find it easier to place my needle directly in the middle and sew along one side of the top, return my needle back to the middle and sew the other side.

Open the two layers out and sew the velcro in place, being sure to sew it to the correct layer.

Tip: Make sure you place your velcro 1/4 inch from the side to allow for seam allowance, and 1/2" above the bottom of the shirt to allow room to hem the bottom of the shirt.
